# *Message from the Chief*

On behalf of all paid-on-call and career members of the **Selah Fire Department**, it is my privilege to present the 2022 Annual Report. The Selah Fire Department is committed to enhancing the quality of life for present and future generations of our community. We protect lives and property through Public Education, Fire Prevention, Fire Suppression, and Emergency Medical Services. Each member of our department is dedicated to serving our community with honesty, integrity and respect for each other and all we serve. We are grateful for the continued support from our community, city and district administration, elected officials, and all of the city departments that work to make our community great. Without your support, it would not be possible for us to meet our mission.

As we looked to the future, we recognized several challenges for the operation and maintenance of the department. The first being funding to maintain our current level of service and second, staffing to meet the needs of a growing community. Early in 2019 the decision was made to put it to a vote of the people we serve. We were humbled when they overwhelmingly showed their support by passing a levy in the city and in the district of .35 per thousand of assessed valuation. Along with existing funding sources, this will assist the operation of the department for several years.

Due to this support, I am proud to announce that the insurance rating of the area we serve has improved. Effective February 1, 2022, Washington Survey and Ratings Bureau improved the Protection Classification in the city from PC 5 to PC 4, and areas of the district were also improved. This has a direct, positive impact on business and home owner insurance rates.

Our organization is focused on providing the safest work environment possible for your Fire/EMS responders. We diligently strive to be the most effective and efficient public safety organization, while giving consideration to the ever changing environment and the necessary evolution of our service. As our community continues to grow, we embrace our responsibility of providing the highest level of care and service to meet the challenges and demands of our community.

Finally, I express a sincere “thank you” to all of the members of the Selah Fire Department. I take great pride in representing such an outstanding group of individuals that continually demonstrate a commitment to the success of this department.

I would like to thank the commissioners of Yakima County Fire District 2 and the City of Selah Mayor and council for allowing me to serve as your fire chief.

Respectfully,

James R. Lange

# ***DEPARTMENT HISTORY***

On January 8, 1940, the Selah Town Council signed Ordinance #90, which provided for the organization, maintenance and regulation of a fire department in the Town of Selah, Washington. Thus was born the Selah Fire Department.

S.C. Justice was appointed as the Fire Chief of the new department consisting of 1 truck, 5 officers and 14 volunteer firefighters.

In 1946 a Rural Fire District (RFD) later to be known as Yakima County Fire Protection District #2 was formed and manned by the Selah Fire Department. This includes the area North of Lookout Point between Selah Heights and the Yakima River, North to Adobe Hill and the hill tops South of Wenas Lake Dam.

East Selah was annexed into Yakima County Fire Protection District #2 in 1960 and the upper Wenas Valley in 1975 creating a combined area 26 miles long and 7 miles wide at its widest point.

The City of Selah and Yakima County Fire Protection District #2 legally combined their fire departments in 1966 creating the department that now exists.

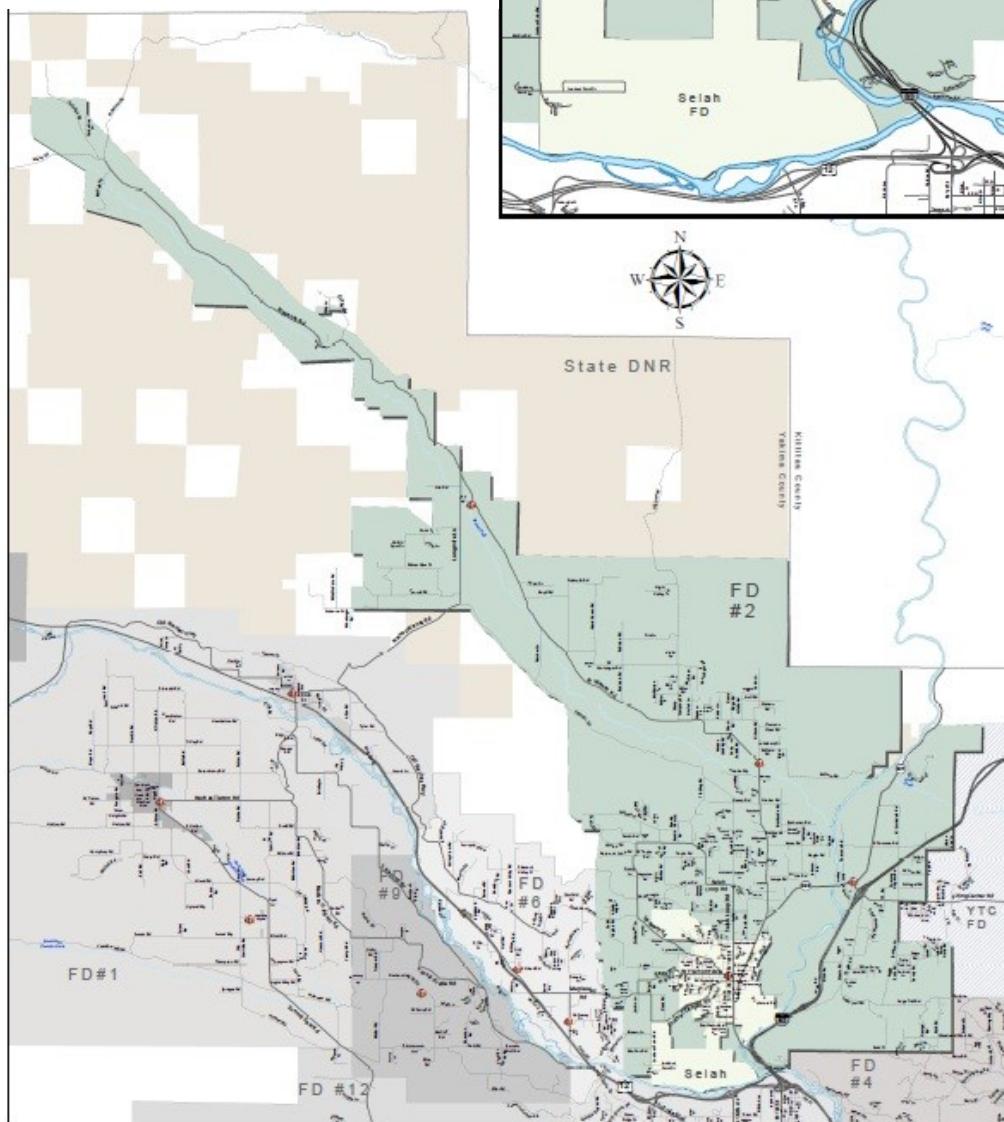

This move was one of the most progressive actions taken since the creations of both fire departments. It has saved the taxpayers thousands of dollars by eliminating duplication in administrative cost, equipment and building needs, operational costs and utilization of manpower.

From this simple beginning, the department now serves an area of 65 square miles and an estimated population of just over 20,000.

In 1940 the Selah Fire Department responded to 6 fire alarms, 4 of which were actual fires, with a total property loss of \$75.00. In 2022, the Selah Fire Department responded to a total of 2,064 calls for service.

# ***SELAH FIRE DEPARTMENT RESPONSE AREA***

## **City of Selah and Yakima County Fire District # 2**

# ***YAKIMA COUNTY FIRE PROTECTION DISTRICT #2 COMMISSIONERS***

**Chairman.....Brad Helms**

**Commissioner.....Dan Boyle**

**Commissioner.....Rex Reed**

**Secretary.....Christine Willis**

The Fire Commissioners form a board elected by the public to represent their fire district.

Yakima County Fire District 2 commissioners serve six-year terms staggered every two years. Any resident, 18 years or older, who lives within the district boundaries are eligible to run for an open position on the board.

All regular meetings are held at 6:30 p.m. on the second Tuesday of every month at Station 21, 206 W. Fremont Avenue. Meetings are open to the public and offer residents an opportunity for public comment.

## **SELAH FIRE DEPARTMENT'S DISTRICT STATIONS**

**STATION 22

**Station 21**

**206 W. Fremont Ave**

**Selah, WA 98942**

**Selah has a strong Mayor, council  
form of government.**

# ***SELAH FIRE DEPARTMENT MISSION, VISION AND MOTTO***

**OUR MISSION IS THE PROTECTION OF LIFE AND PROPERTY, AND TO REDUCE THE FREQUENCY AND MAGNITUDE OF PERSONAL TRAUMA AND PROPERTY LOSS. TO EFFECTIVELY MITIGATE THE KNOWN AND UNKNOWN EMERGENCIES THAT WILL OCCUR.**

## **VISION**

**To position the fire department securely (operationally, financially, and politically) through and beyond our current state of growth, while creating a predictable and sustainable future.**

## **MOTTO**

***Honesty - Integrity - Respect***

**We value the public's trust and are committed to honest and ethical behavior. We hold ourselves accountable to this value. We believe in a personal commitment to the organization and community. Self-discipline is the foundation for managing behavior.**

**We are a fire department family. We are committed and accountable to each other because our lives depend on it. We value the role each member plays in our organization. We respect those that came before us and will strive to make the organization better for those who follow.**

In order to carry a positive action we must develop here a positive vision.

Dalai Lama

# ***FIRE DEPARTMENT ORGANIZATIONAL CHART AND STAFFING LEVEL***

Only those who have learned the power of sincere and selfless contribution experience life's deepest joy: true fulfillment.

Tony Robbins

# ***CALLS FOR SERVICE***

The Selah Fire Department Responded to 2064 Calls in 2022

## **BREAKDOWN OF MAJOR INCIDENT TYPES**

	Emergency Medical	Motor Vehicle Accidents	Fires in Structures	Grass/Brush Fires	Vehicle Fires	Other Fires	All Other Types	TOTALS	
City of Selah	736	35	8	1	4	6	105	895	43.4%
Yakima County Fire District #2	815	91	27	32	10	44	150	1169	56.6%
								2,064	5.65 per day

Benjamin Franklin

# *Public Education/ Community Service*

## Fire Safety classes and Station Tours

2022 Fire Prevention and Public Education was **ON** (Delayed a month). After two years of cancelled classes and tours Firefighter Ron Cline was able to welcome back children from both John Campbell Primary and Robert Lince Early Learning Center & Kindergartens to the Fire Station! Between those two school's Firefighter Cline had 43 classes and 810 children come through the fire station. With the assistance of fellow firefighters, these children had an amazing time. Since the current second graders had not been to the department as kindergartens, Cline meshed the two programs together to give them a great class. The second graders were able to see the fire trucks up close and spray water from an actual fire hose, while learning the steps necessary to exit their homes in the event of a fire. The second-grade teachers loved the change and enjoyed spraying a little water too. Pre-school and kindergarten classes learned the importance of never being afraid of firefighter's and that although they can look scary in their bunker gear, firefighters are there to help them in the event of an emergency. All the children loved the tour and loved the trucks and activities that they were able to experience. Tours and classes were given to an additional 53 children from various day cares and preschools from around Selah and surrounding areas. Bringing the total of children getting fire prevention education to 863 children, their teacher and parents!

## Exit Drills In The Home (E.D.I.T.H. House)

EDITH House is a travel trailer configured into two sections. One half is for watching a fire prevention video from stadium like benches and fire prevention in the kitchen. The other half is where the children actually get to lay down on a bed, hear the smoke detector go off, crawl out of bed to the bedroom door, feel the door for heat, see the smoke coming from underneath the door, then crawl to the window to use their second means of escape. Students then proceed to the "neighbors" house where they call 911. Students use a phone that calls into the EDITH House operator where they are asked a series of question as if actually calling 9-1-1. The most important one being their address. This simulation gives the student the confidence in knowing that if there was an emergency, they could call for help.

Unfortunately, EDITH, was **not used again this year**. The school district was just coming out of the mask mandate and The Selah Fire Department could not guarantee the safety of the children, teachers, and parents. With great regret those second grade students did not get the experience of EDITH. April is the time that EDITH House is in Selah and although the mask mandate was lifted, the last thing the Selah Fire Department wanted was a child or staff member become ill. They did get to experience the steps and tour of the station though in May.

# *Public Education/ Community Service*

## **National Night out/Trunk or Treat**

National Night out has been the fire departments night to put on an extrication demonstration. The extrication equipment is used to cut apart a car. The roof of the car is removed in a matter of minutes and doors are pried open to allow emergency responder's access to the injured patient. During this event the public is allowed to get an up-close look at Engine 21, the department's newest engine. This event in 2022 was back on, unfortunately due to multi alarm apartment fire, prevented the Selah Fire Department from participating. The department spent the evening doing what they do best, fighting fire.

Trunk or Treat, the communities Halloween party, where hundreds of pounds of candy is handed out for kids in a safe environment, from all the local businesses and community groups.

## ***BACK ON!***

The Fire Department again teamed up with the Selah Police Department and handed out hundreds of pounds of candy to the children of Selah and beyond.

The Selah Fire Department looks forward to next year and being involved again with this great event!

# *Other Activities*

## **HYDRANT INSPECTION AND TESTING**

The fire department inspects, tests, lubricates and exercises the valves on all of the 427 fire hydrants within the city and private systems within the district on an annual basis. This is an increase of 20 hydrants in a year. We also conduct fire flow testing every 5 years or as needed when changes are made to the water system. These are necessary to determine the maximum flow the water system can provide in the event of a fire. These calculations are used to determine the maximum square footage of residential and commercial buildings in a given geographical area. They also provide hard data to the cities engineering firm to enhance their computer model of the city's water system.

## **PUMP AND FIRE HOSE INSPECTION AND TESTING**

Pump testing of our structural engines, and pressure testing, inspection and cleaning of fire hose is performed annually. These tests are performed to meet NFPA and WSRB requirements and to reduce the likelihood of failure in an emergency. The department has 6 structural engines and 3.5 miles of fire hose.

It's all fun and games....  
Until you have to pick it up!

# *Training*

TRAINING IS A NEVER-ENDING JOURNEY IN A FIREFIGHTER'S CAREER OF SERVICE.

TO BE KNOWN AS A FIREFIGHTER IS A TITLE OF PRIDE, BORN OF ACCOMPLISHMENT, TRAINING, AND COMMITMENT TO OTHERS.

*Prepared By:  
Training Officer,  
Lieutenant Scott Willis*

# *Training*

In 2022, the members of the Selah Fire Department attended 3,825 hours of training. This training included; 45 Wednesday night department drills, 10 Officer meetings as well as 2 Officer Development drills, 4 quarterly safety meetings, 1 annual department meeting, several certified online trainings, 28 new recruit training classes, and 12 members attended outside training courses.

The outside training consisted of:

4 completing the Yakima County EMT program, 7 attended the National Fire Academy Incident Safety Office course, 7 attended a National Fire Academy Decision Making for Initial Company Officer course, 5 obtained their FEMA Incident Command 300 certification, 1 attended the National Fire Academy Leadership series, 7 attended HazMat Command training, and 1 obtained his Fire Inspector Certification.

Department, local, state and federal mandates require us to facilitate annual training of 4 Self Contained Breathing Apparatus (SCBA) donning and doffing for time evolutions, SCBA fit testing, 6 EMS OTEP Modules and 3 EMS practical workshops, EVIP classroom refresher with a practical driving road course and rodeo, wildland refresher classroom and shelter throw practical, a fitness pack test for wildland red card holders, minimum of 2 personal protective equipment (PPE) inspections and washes, Hazardous Materials (HAZMAT) training, and firefighter rescue (RIT/MAYDAY). All of these trainings were offered and attended. Selah Fire Department policy requires 50% drill attendance by its members. In 2022, 96% of all membership met this requirement.

The department hired 4 new volunteer firefighters this past year. They completed a 200 hour basic firefighter recruit school. This year's recruit school was conducted with online training, classroom lectures, and group practical evolutions.

As volunteer numbers continue to decline nationwide, recruitment and retention of volunteer firefighters becomes more and more challenging. We are working hard to improve our recruitment efforts. I am optimistic with some new ideas we are trying such as opening our borders to new volunteers from outside our district, as well as allowing lateral volunteer firefighters from around Yakima County. There have already been several applications turned in for probationary firefighter positions for the 2023 recruit academy.

# Fire Marshal

The Fire Marshal for the City of Selah is located at the Selah Fire Department, Station 21, on Fremont Avenue. Under the direction of this office; Fire and Life Safety Inspections are provided (at no charge) for all of the businesses in the City of Selah, plan review of developments and commercial construction are performed to meet standards of the International Fire Code, fire alarm-detection and suppression system operational tests are conducted, and pre-fire planning and fire department familiarization of our target hazard and populated locations are maintained.

In 2022 there were 243 businesses scheduled for annual Fire and Life Safety inspections within the city. 235 initial inspections were conducted and 106 re-inspections were completed for a total of 349 inspections performed. These inspections are accomplished by Fire Marshal and Engine Company visits. For new commercial construction inspections, the city's Fire Marshal and Building Inspector coordinate to perform inspections together, when available.

Fire department familiarization of target hazard locations are usually scheduled with local businesses during daytime hours on weekdays and attended by career staff and any available volunteer members. For a few of our larger facilities, walk-throughs are scheduled during Wednesday evening drills and attended by all department members for preparation in case of an emergency.

These fire and life safety inspections are not only conducted to identify potential fire hazards, but also for the safety of employees and patrons. A few of the things we look at are: have the fire extinguishers been serviced and are appropriately placed, are emergency lights functioning properly, are exits identified and clear of obstacles, and if fire alarm systems and fire sprinkler systems have been serviced and are operational.

## *Selah Fire Department*

### *Working For a Safer Community*

*Prepared By:  
Deputy Chief/  
Fire Marshal  
Mickey Gillie*

# *Apparatus*

Our department operates and maintains 22 vehicles out of four stations consisting of:

3 - Command, 5 - Front Line Engines, 1 Reserve Engine, 1 - Rescue, 4 - Combination Brush/Rescues, 2 - Brush, 3 - Water Tenders, 1 - Air Support/Rehab, and 2 - Utility

Revenues obtained through the City of Selah Public Safety Utility Tax and additional funding from Yakima County Fire Protection District #2 have provided us the ability to establish an amortization program for equipment replacement. With a life expediency of 10 to 25 years, depending on the type of vehicle and volume of use, we will need to replace one or more vehicles every 1-2 years to maintain a dependable fleet and stay in compliance with national standards. In 2022 we purchased the department's first ever aerial apparatus (ladder truck). This piece of apparatus will assist us with larger building fire events, rescues in multi-story buildings, and will help to continue keeping insurance costs down. The process of building an aerial is time consuming, but we are excitedly waiting for this truck to arrive. We are currently expecting delivery in late 2023. The department annually updates our vehicle and equipment amortization plan, facility and personnel needs, overall health of the department and completes an assessment of what we anticipate for future needs. This can all be found in our Capital Improvement Plan.

The Selah Fire Department takes great pride in being fiscally responsible and working within the budget we have been entrusted.

We will continue to utilize your money wisely and work within the confines of our budget and provide all services that it allows.

Ultimately the citizens of our community dictate what is important to them and what level of service is acceptable.

# *Equipment*

## **EMS SUPPLIES AND EQUIPMENT**

Selah Fire Department responded to 1,676 calls for medical service in 2022 which is an increase of 253 calls for medical service or more than 17% increase. During these calls there are medical supplies and equipment that need replaced and or repaired. Selah Fire Department was able to help our neighbors with our transport capable rescue apparatus by transporting the occasional patient for them when there were no ambulances available to do so. During 2022 we were also able to replace all of our aging Automated External Defibrillators or AED's with new Physio Control Lifepak 1000 Defibrillators which help our personnel when responding to CPR calls with patients in cardiac arrest.

*Prepared By:  
Firefighter  
Jacob Stuker*

## **PPE AND SAFETY EQUIPMENT**

Selah Fire Department supplies personal protective gear for 47 members. This gear includes structure helmets, structure coats, structure pants, structure boots, structure gloves and an SCBA mask. Also included is a wildland helmet, wildland shirt, wildland pants, wildland boots, and wildland gloves. It cost roughly \$5,000 a person to fully equip a member with NFPA compliant gear.

The structure gear has to be replaced every 10 years per NFPA standards. Our current replacement plan is 5 sets of structural gear every year. This equates to approximately \$14,000.00 annually.

Some of the things we are doing to make this possible is applying for a DNR 50/50 grant. With this grant, we were able to purchase wildland fire shelters to equip some of our structural fire engines, replace worn out wildland gloves, purchase class A wildland firefighting foam, and provide replacement wildland gear (pants and coats.) This year's focus has been working to prepare for 2026 gear expiration. In 2026, 25 sets of structural gear will expire equating to nearly \$60,000 in replacement to stay in NFPA compliance. We were able to order 5 sets of structural gear totaling \$14,000.

*Prepared By:  
Firefighter  
Cody Roberts*

Currently all of our gear meets NFPA standard and we are working hard to maintain that.

# *Awards and Recognitions*

The annual Christmas and awards banquet for our members and their families was held in December. We had a great turnout after 2 years of cancellation due to COVID.

The following awards and recognitions were given.

## YEARS OF SERVICE

5 Years – C.J. Ramos

10 Years – Bryce Holbrook, Cody Roberts, Jaque Scott

15 Years – Scott Willis

20 Years - Tim Biggers, John Rosencranz

30 Years - Jody Taylor

## FIREFIGHTER OF THE YEAR

Chosen by the membership at each station.

Station 21 - Colton Holbrook

Station 22 - Chloe Gordon

Station 24 - Austin Peyser

Station 26 - Aaron Everitt

## ROOKIE OF THE YEAR

Chosen by the officers and given annually to the most outstanding new member.

**Dan Goodwin**

## NEW MEMBERS COMPLETING PROBATION

**Dan Goodwin, Alex Hansen, Randall Rystrom and Janelle Wehrman**

## TOP RESPONDER

Member that responded to the most incidents.

**Bryce Holbrook**

## FIRE DOG GYM

Member that used the work out equipment the most.

**No award**

Winner of the Support Services Quilt Raffle, **Anna Taylor**
